## PHONES AND HEADSETS, TABLETS AND SMARTPHONES

Telephones, headsets and mobile phones are amongst our most 'shared' items. They can carry thousands of bacteria to our mouth and ears; major portals for infections. Use AF telephone and headset cleaning range to minimise the risk and keep your equipment clean and sanitised.

Where they are most likely to be used:

These anti-bacterial wipes can be used on any mobile keypad, desk telephone, blue-tooth or normal headsets. They can effectively reduce germs for up to 24 hours.

As technology changes the touch screen technology of tablets and smartphones are increasingly delicate. Constant cleaning is required to ensure visually the best quality information is seen. Greasy finger-marks and smudges need to be removed regularly and AF has the perfect, simple solution.

Where they are most likely to be used:

Perfect cleaning for smart technology. Ideal for use on any tablet or smartphone where the screen clarity is important.
