SPRAYDUSTERS

The AF range of Spraydusters are manufactured from non-flammable blends of gas and give off zero residue. There are a variety of strengths on offer: standard, high power and super power as well as non-invertible and invertible aerosols to allow access to the most difficult of areas.

Where they are most likely to be used:

Ideal for computers, keyboards, printers, timing devices, cash machines, fax machines, photocopiers, audio/video equipment, photographic equipment, CDs and DVDs and delicate laboratory equipment. Provides excellent service and maintenance aid.

The specialist manufacturers of technology and office equipment cleaning products for:

- PC • Workstation • Office equipment • Multi-media • Tablet • Smartphone
- Touch and plasma screen technology • Game console

HELP US SPREAD THE WORD, NOT THE GERMS

Sprayduster - duster, non-flammable

SDU100 100g aerosol

The smallest AF Sprayduster, provides a handy transportable solution to removing dust and debris.

For use on keyboards and hard to reach areas, also for use on camera lenses.

Sprayduster - duster, non-flammable

SDU125D 125ml aerosol - invertible
